

Georgia-Ann Klutke

Program Director, Operations Engineering, Smart and Connected Health, CMMI

Georgia-Ann Klutke is a program director in the Civil, Mechanical, and Manufacturing Innovation Division at the National Science Foundation. She manages the Operations Engineering program and the Disruption Operations of Illicit Supply Networks (D-ISN) solicitation and is a team member for the Smart and Connected Health (SCH) solicitation. She joined NSF in 2016 after a 29-year career in academia, where she was most recently Professor of Industrial and Systems Engineering at Texas A&M University. She has also served on the faculties of the University of Texas at Austin and the University of Massachusetts, Amherst. She holds a Ph.D. in operations research and industrial engineering from Virginia Tech and a master's degree in biostatistics and bachelor's degree in mathematics from the University of Michigan.
